Load Out Floor Renovation
199 Red Top Road
Fairfield, CA 94534

Project Summary

Substrate
Poured Concrete

Surface Preparation
SSPC SP-13

System
UCRETE® HF

Project Completion Date
Winter 2004

Project Description

Sunnyside Farms called on Polytech Industrial to make minor repairs to their Load Out floors.

As soon as Polytech saw the flooring, they recommended the entire floor be removed and replaced with one that performed as required.

Three inches of various types of flooring were removed over an 8,000 square foot area.

The replacement system that is performing exceptionally today is UCRETE® HF.
