Poured Concrete

**Surface Preparation**  
SSPC SP-13

**System**  
UCRETE® HF & UCRETE® WR

**Project Completion Date**  
Summer 2005

## Project Description

When Busseto Foods set out to expand their plant, they were sure they needed UCRETE® HF on their floors. Over the years, that was the only thing that ever performed to their demanding standards.

After interviewing many UCRETE® contractors, they chose Polytech Industrial, Inc. as the installation contractor. Busseto realized a clear difference in the presentation and floors presented by all contractors.

Time and time again, Polytech demonstrated through projects and customer testimonials that they were the best in the business.

After the 9,000 square foot installation, Busseto felt even more confident that they had made the right choice.

Another satisfied Polytech customer.
